Have asked re RCMP contracts.

Just off the phone with Transport: Their officials say that there is no power to compel private contractors or municipal fleets from federal Government. AB Transport doesn't have their own fleets that can be offered. Municipalities like Edmonton and Calgary do have some vehicles that could help but they do not want to send them for political reasons and local need. There are no legislative or legal ways. Omar is speaking with Min. Sawhney today and will raise the issue of municipal fleets.

Transport is doing the work on non-GOC options for funding but haven't heard back.

Do not have an answer about any towing contracts through the RCMP, only the update that they have been refused service.

Also – what about it voiding our contracts? IE – if they refuse work under our contract what implication does that have on RCMP contracts/

From GOC perspective, there aren't authorities to compel. That would have to come from Police or Ministry in Alberta.

- GOC has no funding available to support or incentivize the removal

Is different than there is no incentive
